Environmental Best Business Practice to **improve** profitability

The presentation will address recent trends in sustainability, how these affect organisations and how organisations respond to these trends. Part of this response is communication of how the organisation manages its economic, social and environmental impacts and how this affects the organisation. The importance of a structured approach for communication and the benefits of reporting to all stakeholders will be shown with practical suggestions for reporting for small and medium businesses to get the best benefits and improved profitability.

TOPIC

Sustainability and integrated reporting: the business case for why you must do it.

GUEST SPEAKERS:
Maryna Möhr-Swart and
Seakle Godschalk

Environmental and Sustainability Solutions (ESS) International experts and training providers in sustainability accounting

Environmental & Sustainability Solutions (ESS) is a boutique consultancy focusing on all aspects of sustainability accounting, including sustainability and integrated reporting. ESS is one of only two internationally certified training providers on sustainability reporting in Africa where they have offered in South Africa, Zambia, Mauritania, Zimbabwe, Nigeria and Kenya. They have assisted organisations in the commercial, public and non-governmental sectors with developing sustainability or integrated reports. The presentation will be conducted by Dr Maryna Möhr-Swart and Mr Seakle Godschalk, both executive directors of ESS.
