"What separates successful business owners from those who merely own a job? While many business owners aspire for explosive growth, only a few recognise the critical distinctions required to succeed or have the entrepreneurial flair to ever make it happen. Why do some business owners end up 'owning a job'? What does it take to create wealth while enjoying every moment of it? How do others manage to build and grow successful enterprises? If you want to know the answers to these questions, you must come and listen to global entrepreneur, business prodigy, author and successful businessman" Carl Bates.
